

Falun 2021-08-29

To the International Ski Federation

Föreningen Svenska Skidspelelen(FSS) consists of members from 12 local ski clubs in the Falun/Borlänge region.

12 ski clubs whose main purpose is to ensure the need for volunteers during the FIS world cup cross-country competitions in Falun.

During the Nordic World Ski championships 2015 FSS was a great contribution for the main part of the total number of volunteers.

The ski clubs all agree that hosting another championship in Falun, would be an additional motivator for engagement in our clubs and during the competitions towards 2027. An engagement that also will inspire more to ski and be part of the social network and community that it means to belong to a ski club.

The member clubs in FSS have a long tradition of volunteer work and are constantly working to develop competitions and competence, as well as together with the world cup company cooperate to develop the Lugnet arena and the world cup events towards future requirements.

FSS fully support the candidacy of Falun and welcomes a new FIS Nordic World Ski Championships in Falun 2027.

Sincerely

Mr. Håkan Syrjä

Chairman of the board Föreningen Svenska Skidspelelen
