

**Information meetings for the 7<sup>th</sup> grade. Please pay attention to the spread of ongoing infection and that you have personal responsibility in this regard**

Falun's municipal primary schools welcome students and guardians according to previous invitation to information meetings regarding choosing of school for grade 7. We are currently seeing an increase of the spread of covid-19, influenza, RS-virus, and winter vomiting disease (Calicivirus), everyone is therefore urged to take personal responsibility. For example, stay at home if you have symptoms and think about keeping proper hand hygiene. If you cannot participate in the information meeting, please contact the school in order to receive information regarding grade 7. The schools intend to carry out the information meetings in person, granting the opportunity for visitors to see the school premises. The employees of the schools will be available to answer your eventual questions.
